Electronic Column Shifter

Delivering smooth, intuitive gear control, elevating the business driving experience.

Electronic Parking Brake

Farizon SV features an Electronic Parking Brake (EPB) with an integrated Auto-Hold function, controlled via a dedicated switch. The EPB automatically disengages upon gear selection and accelerator input, while Auto-Hold keeps the vehicle stationary on level ground or slopes until the driver accelerates.

Strong Vehicle Body

Built on a high-strength cage body, the SuperVan uses more than 70% high-strength steel to achieve 38,000 Nm of torsional stiffness, a 45,000 N roof load rating, and a 2,000 kg towing capacity. Safety is further reinforced by an aluminum-profile electric box that automatically disconnects high-voltage power, unlocks the doors, and activates the hazard lights in the event of a collision.
